AMENDMENT

Sir:

In response to the December 18, 2002 Office Action, please amend the above-identified application as follows.

In the Claims:

Amend claims 1, 10, and 16 as follows:

1. (Amended) A method of displaying images using an image display device having two displays, each display being arranged in the image display device so as to be capable of presenting an image to an eye of a user, the method comprising:

dividing image signal data into a first portion, the first portion comprising a first reduced data set defining the entire image, and a second portion, the second portion comprising a second reduced data set defining the entire image, the first portion differing from the second portion;

generating a right display signal using the first portion of the image signal data;

generating a left display signal using the second portion of the image signal data;

transmitting the right display signal to a right one of the displays;

transmitting the left display signal to a left one of the displays;

displaying a right image on the right display from the right display signal; and

displaying a left image on the left display from the left display signal,

substantially simultaneously with the displaying of the right image.

10. (Amended) A method of displaying images using an image display device having two displays, each display being arranged in the image display device so as to be capable of presenting an image to an eye of a user, the method comprising:
